

PUMPKINTOWN

Well I went down to pumpkintown
To see what I could say
'Cus my daddy said that a punkin' head
May be just the girl for me
Well I had my doubts when I first set out
But I changed my mind right quick
When I found my match in a pumpkin patch
Where the vines grew rich and thick
And I could have my pick

Heigh! Ho! Pumpkintown!
Where all the girls are plump and round
Meet you when the sun goes down in Pumpkintown

Well the moon revealed in an open field
Pretty pumpkins by the score
Every one I spied had a prettier side
Than the one I chose before
Had an awful time makin' up my mind
'Cus they all looked fine to me
When I finally met my Juliet
I went on bended knee
And I cut that poor girl free

(chorus)

If you go down to Pumpkintown,
You're in for some big fun
Those homegrown girls, blossom curls,
Come on boys! Let's pick one!

Gave my pumpkin bride a wheelbarrow ride
All around the farm
And I guess you know we finally rolled
Into each other's arms
And I'll tell you this, It was pumpkin bliss
And we made each other glad
But it quickly passed, it couldn't last
She's gone and now I'm sad
Best pie I ever had

(chorus)
